RABBIT FEEDING GUIDE

by Clan Wallace Ranch

START WITH A COMPLETE RABBIT FEED

Complete feed matched to life stage. Fresh water always.
Free-choice orchard grass or timothy hay.

Kits to Intermediates

Weaned
& actively growing

Free choice

Complete grower feed

Our blend: 1 tsp per growing rabbit.

Pregnant Does

Adjust through gestation

1 fl oz per lb daily

Complete adult feed*

Our blend: 1 tbsp per pregnant doe.

Nursing Mothers & Underconditioned Does

Those who require a little extra.

Free choice

Complete adult feed*

Our blend: 2 tbsp added to feed per doe.

Maintenance Adults

Mature bucks & resting does

1 fl oz per lb daily

Approx. 1/2 oz by weight per lb

Our blend: 1 tbsp once/week or 1 tsp 3x/week.

OUR SPECIAL BLEND (1:1:1): rolled oats, black oil sunflower seeds, Calf-Manna

*Choose adult feed labeled for pregnancy/lactation; gestation amounts vary by feed.
Blend portions reflect our ranch practice. Free choice = fresh feed available; check intake daily.

Feed the rabbit in front of you.

Starting points, not limits. Check weight, growth & condition.
Do your own research and use common sense!
Fluid ounces = volume; weight varies by feed.
Unexplained weight loss or poor appetite? Contact your vet.
